

FUTURE EMISSION-FREE VEHICLES: ELECTRIC MOTORBIKE TEST DRIVE AT PT PAN BROTHERS Tbk

Tangerang, October 25, 2022, PT Pan Brothers Tbk (the Company) received the Indonesian Shopping Center Retailers and Tenants Association (HIPPINDO) visit to introduce electric motorcycle. This activity is carried out as an actual effort by the Company in supporting the priority issue of the 2022 G20 Presidency of Indonesia related to emission reduction, where Indonesia raises its emission reduction target to 31.89% in 2030 with an international support target of 43.20%.

On this occasion, HIPPINDO came with 3 brands of domestically made electric motorcycles in order to introduce the readiness of Indonesian technology and products in implementing emission reduction targets, whose brands consist of: United, Volta, and Alva One. These brands each brought 2 electric motors which are specially provided for the Company's employees test-drives. Dozens of the Company's employees have welcomed this initiative and have tried the convenience of driving with an electric motorbike.

Mr. Budiharjo Iduansjah as the General Chair of HIPPINDO said that HIPPINDO supports Indonesia's energy transition through the transition of oil-fueled vehicles to electric fuels. The vehicle transition is targeted to be able to have a positive impact on reducing air pollution, as well as assist the government in suppressing fuel subsidies which are in line with HIPPINDO's work program related to environmental care and partnering with the government.

In line with Mr. Budiharjo, Mrs. Anne Patricia Sutanto welcomed the initiatives carried out by HIPPINDO and also conveyed the importance of the energy transition. Reducing emissions through the development of the use of green technology has become one of the main targets for the Company as stated in the commitment of the Company's 10 Sustainable Development Goals. Therefore, the opening of the opportunity to test drive electric vehicles in the Company's area is a form of commitment and the first step taken by the Company through product introductions accompanied by continuous surveys.
