

THE GP2SP AWARD 2022 FOR THE COMPANY

Banten, 24 November 2022, PT Pancaprima Ekabrothers on behalf of PT Pan Brothers Tbk (the Company) won the 2022 Best Practice Award for the Healthy Productive Women Worker Movement (GP2SP) at the Le Dian Hotel Serang, Banten.

The GP2SP Award was presented by Drg Kartini Rustandi M.Kes as Director of Productive Age & Elderly Health, Ministry of Health of the Republic of Indonesia. The GP2SP award is given for the Company's efforts to increase the resources of healthy and productive female workers through improving health and nutrition. The judging process was carried out through 2 stages of selection, namely selection from the Tangerang City Health Office and Banten Provincial Health Office, followed by selection from the Ministry of Health along with 36 other companies selected from all over Indonesia, namely: Riau, South Sumatra, Lampung, DKI Jakarta, West Java, Central Java, East Java, DI Yogyakarta, Banten, Central Kalimantan, East Kalimantan, South Sulawesi.

PT. Pancaprima Ekabrothers representing the Company has succeeded in becoming one of two companies in Tangerang City Regency that have passed the GP2SP award judging process since January 2022. The Company's participation in this program is based on the Company's care for the health and productivity of female workers. In line with that, the GP2SP program has also become an important part of the Social Sustainability Development Goals that have been pursued by the Company for a long time. The intended goal is listed in the Fifth Goal, namely Gender Equality, in which proven by the Company through its subsidiaries on achieving diversity and equal opportunities for all employees through several initiatives, including GP2SP.

This award is an encouragement for the Company to improve the quality of initiatives related to the health and productivity of women workers in a sustainable manner. The company hopes that the commitment to create a quality work environment that supports gender equality can be realized and able to provide benefits for all stakeholders including employees, community, environment and the business' sustainability.
